

**International Society of
Lifeline and Infrastructure
Earthquake Engineering
&**

**中国地震学会
基础设施工程防震减灾专业委员会**

**International Seminar on Aseismic Design
and Disaster Mitigation of Lifeline and
Infrastructure Engineering**

May 15, 2018 · Beijing

Call for Presentations

The Conference will be focused on the exchange and cooperation in earthquake engineering, countermeasures for earthquake disaster risk reduction of urban lifeline and infrastructure, seismic emergency response, and post-earthquake rescue, relief, and recovery. We look forward to your participation in this seminar, and hope that this seminar will provide all of us with a good opportunity for fostering innovative ideas and productive cooperation.

Key Dates

Seminar: 15th May 2018

Organizers

International Society of Lifeline and
Infrastructure Earthquake Engineering
&
中国地震学会
基础设施工程防震减灾专业委员会

Beijing University of Technology

International Seminar on Aseismic Design and Disaster Mitigation of Lifeline and Infrastructure Engineering

会议时间: 2018年5月15日

会议地点: 北京工业大学新理科楼C240

时间	特邀嘉宾	单位	报告题目
08:00-09:10	Prof. Hong Hao	Curtin University	Response Characteristics of Structures Subjected to Multi-Hazards Dynamic Loads
09:10-10:20	Prof. Rajesh Dhakal	University of Canterbury	Loss Optimization Seismic Design – A Step towards Resiliency through Future
10:30-11:30	Prof. Qiang Han	Beijing University of Technology	Seismic Design and Application of Rocking Double-Column Bridge with Replaceable Energy Dissipating Fuses
14:00-15:10	Dr. Craig A. Davis	Los Angeles Department of Water and Power	Operationalizing Lifeline System Resilience
15:20-16:30	Prof. Zhao-Hui Lu	Central South University & Beijing University of Technology	Structural Reliability Assessment under the Condition of Insufficient Information and Information Updating
16:30-17:00		Academic Exchanges & Discussion
